

KEB AUSTRALIA LTD Level 9 Chifley Tower | 2 Chifley Square | Sydney

KEB Australia Ltd is a Subsidiary of Korean Exchange Bank, a specialised foreign exchange bank. It is the fifth largest bank in South Korea and head quartered in Seoul. We were selected based due to our past experience in the building and based on a recommendation from our clients.

We designed floor plate for front of house to take advantage of the sweeping views across the botanical gardens and we maximised business efficiency with effective back of house planning.

KEB also had specific head office requirements and we integrated these requirements in the scope to ensure their international standards we met.

We completed this project within a very short timeframe and we look forward to assisting KEB with their future growth within Australia.
